

Let's go to the library! (1)

It's really fun to go there!

If you want to learn more about Japan and local tourism and culture, if you are looking for books to read in your native language, or if you are looking for a place to spend time with your children, why not use your local library? This time, we covered Fujimino-shi Kamifukuoka Library, Fujimi-shi Central Library and Miyoshi-machi Central Library.

■ Fujimino-shi

Located near Chuo Park, the two-story Fujimino-shi Kamifukuoka Library has approximately 394,000 books, art books, magazines, and videos, all of which are available for use.

An English version of the pamphlet is also available, and the "Pointing Guide Board" is displayed in seven languages.

Approximately 1,500 novels and articles for adults written in multiple languages and 800 picture books and stories for children and many other books are waiting to be used.

In addition, some magazines and children's picture books are available in multiple languages, and some are written in easy Japanese.

■ Fujimi-shi

Fujimi-shi Central Library has a collection of about 850 books in foreign languages.

The books are located in the section labeled "Foreign Language Books," 80% in English, less than 20% in Korean, with a few books in Chinese, Portuguese, and French.

There were some Haruki Murakami books for adults, but the majority were children's books such as "Harry Potter" and "Anne of Green Gables." 20% of the total are picture books.

Life consultation

Monday to Friday 10:00~16:00

I have to move for work reasons. How can I find a rental apartment near my new place of work? What are the procedures for moving?

Usually, rental properties are rented through a real estate agency. If you look through the website of a real estate agency, you will see that there are many rental properties listed. The real estate company will take care of everything regarding the contract between you and the landlord. Another option is to rent public housing if you meet your requirement. Saitama prefectural housing is offered four times a year in January, April, July, and October. Once you have decided on a residence, submit a "Notification of Moving Out" at the city office where you will be moving from and obtain a "Certificate of Moving Out". You should submit a "Notification of Moving In" and a "Certificate of Moving Out" at your new residence. When you move in, your new address will be written on the back of your residence card. If you do not submit the "Notification of Moving In" within 14 days of moving out, you may be subject to a fine of up to 50,000 yen!
